or Make Your Own Combination Garden!

Our NEW Specialty Garden Sign is a great addition to your Homegrown Gourmet™ display! On the sign are several plants your customers can select to grow a combination garden at home. Are they crazy about Salsa? Italian cooking? Heirloom Tomatoes? We have the right mix of plants for them to choose to create these delicious combinations.

The sign comes with a shuttle tray holder that will fit 6 plants, the same as the combinations on the sign. The customer picks up an empty tray and fills it with the plants suggested on the sign (or any six plants they would like).
